About The USER MANUAL

The user manual applies to the following device types:
- BCM-156-3HSV
- BCM-156-HSV
- BCM-156-SV
- BCM-156-V

The images of BCM-156-HD monitor are adopted in the following descriptions. Any of the different specifications between the device types are elaborated. Before reading the manual, please confirm the device type.

Note: The specs are subject to change without prior notice!

BCM-156 Series LCD Monitor

Chapter 1 Overview

Introduction

The BCM-156 Series LCD Monitor is a high performance broadcast monitor tailoring most applications from program production, intensive upload/download, playout to studio and intensive monitoring all sorts of business in TV Stations.

The front frame of the unit comes in a slim bezel design made from rubber mold. The professional IPS glass at full resolution of 1920 x 1080 with LED backlight makes the BCM-156 Series LCD Monitor capable of reproducing a natural color at quickest response time. In addition, the unit boasts a full wide viewing angle as well as excellent brightness and contrast ratio.

By adopting the advanced 10-bit digital signal processing technology plus 3D comb filter, de-interlacing capability and accurate scaling ensures the BCM-156 Series LCD Monitor to achieve a better effect of smoother and more natural image.

The BCM-156 Series LCD Monitor supports up to 2Ch 3G/HD/SD-SDI/analog input, 1Ch S-Video and ICh YPbPr input, and 1Ch HDMI/DVI-D input. Featuring PBP/PIP and showing two signals simultaneously on the same screen makes the BCM-215 with added value.

TheBCM-156 Series LCD Monitor delivers much capable display functionality like waveform/vector scope, audio de-embedding, audio monitoring, audio metering bar, TC, CC, AFD, UMD and all kinds of markers.

The BCM-156 Series LCD Monitor also offers signal monitoring function, a real time monitoring for video loss, freeze frame, audio loss, audio overloaded and audio over low.

Feature

- Prevailing slim bezel design
- Having multi format input including 3G-SDI
- Adopting full HD, wide viewing angle IPS glass
- Using 10-bit signal processing technology plus advanced conversion technology between the interlacing and the progressive
- Featuring PBP and PIP, dual 3G-SDI capable under PBP mode
- Supporting waveform/vector scope, audio metering bar, TC, IMD and CC
- Supporting varied color temperature, varied scan modes, flexibility in marker setting, Blue Only/Monochrome mode
- Signal monitoring, types of alarm include video/audio loss, EDH, freeze frame, black field and audio lever over high/over low

Chapter 2 Safety Precaution for Use

Read and keep these instructions. Heed all warnings. Follow all instructions.

About the Position

1. Do not block any ventilation openings.
2. Do not use this unit near water.
3. Do not expose the unit to rain or moisture.
4. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that product heat.
5. A nameplate indicating operating voltage, etc., is located on the rear panel. Install only in accordance with the instructions in the section entitled, "Unpacking and Installation" on page 3.
6. The socket-outlet shall be installed near the equipment and shall be easily accessible.

About the Power-supply Cord

7. Do not defeat the safety purpose of the polarized or grounding-type plug.
8. Do not damage the power cord, place the heavy objects on the power cord, stretch the power cord, or bend the power cord.
9. Protect the power cord from being walked on or pinched, particularly at plugs, convenience receptacles, and the point where they exit from the unit.
10. If the power cord is damaged, turn off the power immediately. It is dangerous to use the unit with a damaged power cord. It may cause fire or electric shock.
11. Unplug this apparatus during lighting storms or when unused for long periods of time.
12. Disconnect the power cord from the AC outlet by grasping the plug, not by pulling the cord.
13. Should any solid object or liquid fall into the cabinet, unplug the unit and have it checked by qualified personnel before operating it any further.

⊥ Monitor

14. Do not beat with a hard object or scratch the LCD display.
15. Do not make the freeze picture displaying on the screen time too long, otherwise, it will leave the afterimage on the screen.
16. Install in accordance with the manufacturer's instructions
17. If the brightness is adjusted to the minimum, then it might be hard to see the display screen.
18. Refer all servicing to qualified service personnel. Servicing will be required under all of the following conditions:
    ➢ The unit has been exposed to rain or moisture.
    ➢ Liquid had been spilled or objects have fallen onto the unit.
    ➢ The unit has been damaged in any way, such as when the power-supply cord or plug is damaged.
    ➢ The unit does not operate normally.
19. Clean only with dry cloth.
20. Specifications are subject to change without notice.

Chapter 3 Product Introduction

Unpackaging and installation

Opening the box, please check whether the device has been damaged during transport. Check all the things listed on the packing list are received. If there is any missing, contact your distributors or Beijing Osee Digital Technology Ltd. for it.

We recommend that you should save the packing materials for future needs.

1. Install the pedestal following the iinstallation instructions.

   Note: The pedestal and the monitor are packaged separately.

2. Put the monitor on the position you need for installing, and connect the power. Please make sure the place you put is safety.

3. Connect a standard signal lines to the corresponding input port. All BNC connector impedance must be 75Ω.

   Note: Please use the power adapter supplied to avoid unnecessary trouble.

4. Use the power adapter and cord to connect single-phase three-wire AC power or following the local power supply conditions. Make sure the power cord grounding well.

5. Finally, turn on the power switch, so that the device will be ready for work.
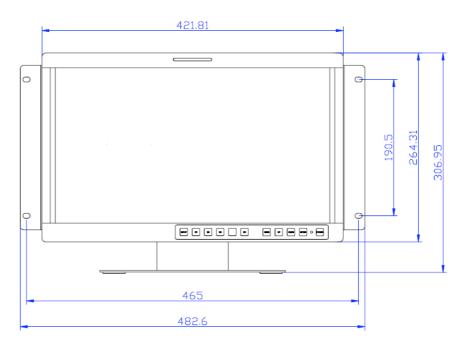

Packing List:

NO.	Detail list		Quantity
1	Monitor		1
2	Pedestal with screws		1
3	Accessory	warranty card	1
		the base installation instruction	1
		User manual	1
4	The electric accessory	12V adapter	1
		Power cord with fastening	1

Note: The packing list would be different according to the device type. Please confirm the device type. And the BCM-156 Series Monitor supports two modes of riding position. The monitor is equipped with the optional accessories for being assembled onto the racks.
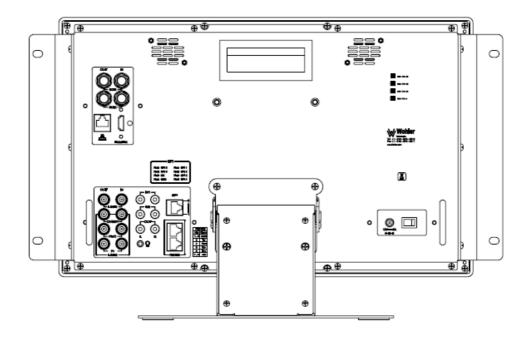

Description of product structure

Front panel (Unit: mm) (As the following figure)
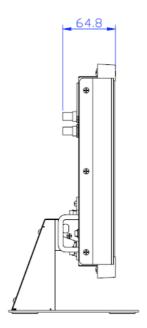

Note: As the figture shown, the monitor installed the pedestal and the optional accessories.
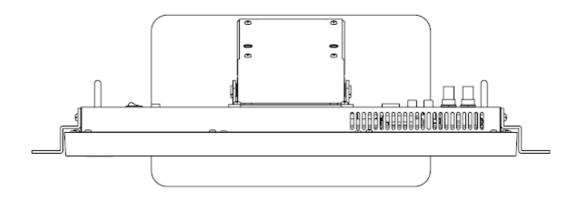

Rear panel (Unit: mm) (As the following figure)

Side view (Unit: mm) (As the following figure)

Top view (Unit: mm) (As the following figure)

Chapter 4 Usage

4.1 Description for Display status

1, Status information:	Displayed in the upper left corner of each window, including the input channel number and signal format.
	Note: 1, If there is no signal input, it will display "NO SYNC" and if the monitor doesn't support the input signal, the display information will be "UNKNOWN". For the current input signal, it will lock displaying the corresponding video format. 2, the main screen status information is displayed in the upper left corner of the window, the additional screen state information is displayed in the upper right corner of the window.
2, TC code:	Display Format: HH: MM: SS: FF and if there is no TC code, display --:--:--:--.
3, UMD / IMD:	16 characters can be displayed. Support the character color change (red, green, yellow, white).

4, OSD TALLY:	Display two OSD TALLY, support color transform (red, green, yellow).
5, Level meter:	Display audio meter. Support for semi-transparent display, can reduce the impact for the image. *Note: The audio level meter can be vertical or horizontal display. And more information about meter setup refers to Table 3.*
6, Waveform and vector display:	In PIP mode, it would display on the sub-window. In PBP mode, it would display side-by-side with the main window.
7, PBP/PIP：	The sub-window size is 1/9 or 1/16 of the main window. And the window sizes refer to 5.6 PBP/PIP Input. *Note: Marker setup is invalid in PBP mode.*
8, AFD	AFD will display at the upper center of the screen.
9, MUTE	The mute logo icon is . It can be setup in the function key menu.

4.2 Supported Signal Format

● Support two-channel analog video input with loop-through output, loop-through output and input are identical.

● Support two-channel adaptive SD/HD/3G-SDI video input and two-channel loop-through output.The loop-through output and input are identical.

● Support one channel DVI/HDMI input including HDMI audio.

Table-4.2 Supported signal format:
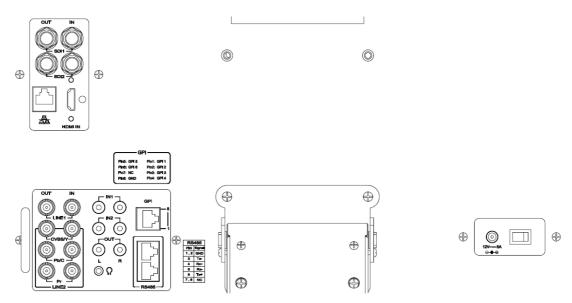

Signal Format	SDI	VIDEO	YC	YPBPR	HDMI
PAL		O	O		
NTSC		O	O		
480I60/59.94	O			O	O
576I50	O			O	O

UXGA(1600X1200)					O
UXGA+(1680X1050)					O
WUXGA(1920X1080)					O
WUXGA(1920X1200)					O

Note:" O" is the Supported signal format.

4.3 Interface of rear panel

Note: The specs are subject to change without prior notice.

1，video interface:

3G/HD/SD SDI signal input / output: BNC x4 (IN/OUT)

Composite signal input / output: BNC x4 (IN/OUT)

Y/C signal Input / Output: BNC x2 (IN/OUT)

YPbPr signal Input / Output: BNC x6 (IN/OUT)

HDMI/DVI-D signal Input / Output: HDMI Type-A x1 IN

2，Audio Interface:

        Audio IN1: Audio signal input

        Audio IN1: Audio signal input

        Audio OUT: Audio signal output

3，The control interface:

        GPI port

        RJ45 input and output ports

        Network port for parameter setup and information read

4，Power Interface:

        DC12-19V input, 60W

4.4 Interface of front panel

➢ INPUT: Select the input signal.The source menu would display on the right conner of the window. Each time you press to switch in the following order: SDI 1, SDI 2, VIDEO, YPbPr, and HDMI. The machine retains input selection state. Unused inputs can choose to skip through the menu.

➢ F1 ~ F5: function keys, the function can be set via the FUNCTION menu. Open the FUNCTION menu after the first time, the selected function will remain.

➢ MENU: Enter the main menu item and enter the next sub-menu. Or press this key to backspace to the menu without save.

➢ ▽(DOWN): Select the menu item or select the option of the item.

➢ △(UP): Select the menu item or select the option of the item.

➢ ENTER: Press ENTER in turn to diaplay VOLUME, BRIGHTNESS, CONTRAST, CHROMA, APPERTURE menu. And in main menu, click the button to enter the next level menu, or press the botton to save the setup and backspace the menu.

➢ POWER: Power switch.

Chapter 5 Menu Description

5.1 Main menu

It displays as following fig 5.1.1 by pressing the MENU button.

Fig 5.1.1

Fig5.1.2

1   Main menu NAME
The main menu item which is selected will be display.

2   Menu items
● Press MENU key, the menu will display in the screen.
● Press ENTER key to enter the item selected and press the ENTER ket again, the setup will be saved.
● Press MENU key to exit the menu and don't save the setup.

3   Sub-menu items
● Press UP/DOWN to switch the items.
● Press MENU key to backspace the main menu items.
● Press ENTER key to enter the sub-menu items which is selected.

Note:

1. After the menu is enabled, the menu will refresh the current contents of the menu if the signal changes,

2. Press MENU key and if there is no operation within 60s, the menu will automatically disappear.

3. The main menu displays in the upper left corner of the screen with the translucent blue background and white font.

4. The background of selected menu item color changes to yellow.

5. Items can not be adjusted in the submenu would be gray.

Details are as follows:

MAIN MENU	SUB-MENU	ITEMS
STATUS	Status messages	
INPUT SETUP(G)	SDI1	<u>ON</u>, OFF
	SDI2	<u>ON</u>, OFF
	LINE1	<u>ON</u>, OFF
	LINE2	<u>CVBS</u>, Y/C, YPbPr, OFF *Note: The BCM215 monitor support only.*
	HDMI	<u>HDMI</u>, DVI-D, OFF
	NTSC SETUP*2	0, <u>7.5</u>
	NTSC PHASE	-50-<u>0</u>-50
MARKER*1(G)	MARKER	<u>OFF</u>, ON *Note: If you selected NATIVE, the MARKER will be disabled.*
	AREA MARKER	<u>OFF</u>, 4:3, 15:9, 14:9, 13:9, 1.85:1, 2.35:1(in 16:9mode); <u>OFF</u>, 16:9

Note: "G" represents the channel is irrelevant; "S" indicates that set associated the channel. Siganl channel such as SDI1，SDI2，VIDEO1，VIDEO2，YC，YPBPR，HDMI.

5.2 Status Display

Press MENU, it will display the status information as following. If there is no operation for 10 seconds, the menu would disappear.

INPUT	SDI1 （or others）
FORMAT	1080I50 （DVI: 1024X768@60, etc.）
COLOR TEMP	D65
SCAN MODE	NORMAL
I/P MODE	NORMAL，FIELD，FILM
MODEL	BCM-156-H (according to the monitor）
SERIAL NUMBER	XXXXXXXXXXXXXXX
IP ADDRESS	168.192.1.1
COLOR VERSION	65535 – 255 – 255 . 65535

5.3 Function Display

In all mode, the function menus are displayed in the lower left corner of the screen, with blue background and white font. The background color of the currently selected item changes into yellow. If there is no operation for 10 seconds, the menu would disappear.

Detailed information refers to main menu table

5.4 Adjustment Menu

When it is not in main menu mode, press ENTER to disaplay

VOLUME/BRIGHTNESS/CONTRAST/CHROMA menu items. If there is no operation for 10

seconds, the menu would disappear.

5.5 Source menu

Source menu displays in the upper-right corner of the screen, with blue background and white

font. The background color of the currently selected item changes into yellow.

In the menu, the sourse which can not be selected is still display with gray point.

5.6 PBP/PIP Input

Table 5.6.1 PBP/PIP Input source

Sub \ Main	SDI1	SDI2	VIDEO1	VIDEO2	YC	YPBPR	HDMI	WAVE FORM
SDI1	X	O	O	O	O	O	O	O
SDI2	O	X	O	O	O	O	O	O
VIDEO1	O	O	X	X	X	O	O	X
VIDEO2	O	O	X	X	X	O	O	X
YC	O	O	X	X	X	O	O	X
YPBPR	O	O	O	O	O	X	O	X
HDMI	O	O	O	O	O	O	X	X

Table 5.6.2 PBP screen size

Ratio \ Signal	4:3	16:9
SD	PanelWidth/2 X (PanelWidth/2)*3/4	PanelWidth/2 X PanelHeight/2
HD	X	PanelWidth/2 X PanelHeight/2
WAVEFORM	PanelHeight/2 X PanelHeight/2	PanelHeight/2 X PanelHeight/2

Table 5.6.2 PIP screen size

Ratio Signal	4:3	16:9
SD SMALL	(PanelWidth/4)*3/4 X PanelHeight/4	PanelWidth/4 X PanelHeight/4
HD SMALL	X	PanelWidth/4 X PanelHeight/4
SD LARGE	(PanelWidth/4)*3/4 X PanelHeight/4	PanelWidth/3 X PanelHeight/3
HD LARGE	X	PanelWidth/3 X PanelHeight/3
WAVEFORM SMALL	PanelHeight/4 X PanelHeight/4	PanelHeight/4 X PanelHeight/4

Chapter 6 Specification

6.1 Description for Specification

LCD Dimension   15.6"

Screen Scale   16:9

Resolution   1920 (H) x 1080 (V)

Color Depth   10-bit, 1.07B

Viewing Angle   178 (H) x 178 (V)

Brightness   210 cd/m^2

Contrast Ratio   700:1

6.2 Input signal format

Analog Composite: PAL, NTSC

SD-SDI: 480i、576i

HD-SDI: 1080i50/59.94/60，720p50/59.94/60，1035i59.94/60

3G-SDI: 1080p50/59.94/60

6.3 Specifications

CVBS Input/ Output:

Signal Type   NTSC, PAL

Signal Amplitude   1Vp-p+/-3dB

Impedance   75 ohms

Return Loss   >40 dB 到 5 MHz

DC Offset   0V±0.05 V

Frequency Response   ±0.2 dB to 5 MHz

Differential Gain   <1%

Differential Phase   <1.5°

3G-SDI /HD-SDI /SDI-SDI Input/ Output:

Signal Type	SMPTE 424M, SMPTE 292M, SMPTE 259M, SMPTE 297M
Connector	BNC per IEC 169-8
Impedance	75 ohms
Return Loss	>18 dB 5 to 270 MHz
	>15 dB 270 MHz to 1.5 GHz
	>10 dB up to 3 GHz
Maximum Signal Level	800 mV pk-pk 10%
Signal Amplitude	800 mV pk-pk 10%
DC Offset	0 V ±0.5 V
Overshoot	<10%
Total Jitter	<0.2 UI
Rise and Fall Time	<700 ps for SD
	<270 ps for 1.5 Gb/s HD
	<135 ps for 3 Gb/s HD
Extinction Ratio	>8
Back Reflection	<-14 dB

6.4 Input/Output Resolution, Frame Refresh Rate and Color Matrix:
